SUMMARY

At 17 years old, I'm a self-taught web developer with a passion for creating engaging websites. Through self-learning, I've honed my skills and am committed to continuous improvement. Opting out of college, I've been able to maximize efficiency and minimize expenses, and I'm excited for new web development challenges.

PROJECTS

SPACE TOURISM WEBSITE

- Built a responsive website as part of a Frontend Mentor challenge.
- Utilized HTML, SCSS, JavaScript, JSON, and jQuery to bring the Figma design to life.
- Implemented dynamic page content using JSON data to create an interactive user experience.

QUOTE LIBRARY WEBSITE (work in progress)

- Built a MERN stack web app with Redux for state management.
- Features include random quote generator, bookmark(with crud operation to the database) , and OAuth2 authentication.
- Continuously adding new feature to the website to improve the user experience.

LOOKSCOUT WEBSITE (work in progress)

- a large-scale responsive website using React for a client with multiple pages, showcasing proficiency in building complex web applications.
- focus on writing clean and maintainable code, and creating CSS animations and effects that enhance user experience
